Keith Wesolowski

to me

Wasco Co Planning Office,

With regards to Energy Ordinance Updates (PLALEG-09-06-0003), I would like to ask that you include a 1 mile setback from residence in resource zones, as is the proposed setback for residence in non-resource zones.

While the population density is not as great in the resource zones, for those of us that do live in those zones, we do not wish to live close to wind turbines. Landowners with large tracks of land may desire to lease their land to such project, since the turbines will not necessarily be located next to there homes. For those of us that live on 5 or 10 acre parcels, that is a very disturbing prospect.

As such, I would like to urge that a 1 mile setback also be proposed for residence is resource zones.

Sincerely

Keith Wesolowski
