### Agenda Item – SWAC Rate Recommendation

North Central Public Health Environmental Health Specialist Supervisor John Zalaznik stated that the Solid Waste Advisory Committee (SWAC) met and reviewed the the Wasco County Landfill’s request for a rate increase to take effect on January 1, 2019. He reported that the SWAC is recommending the increase as proposed.

**Vice-Chair Hege moved to approve Order 18-042 in the matter of rate increases for the Wasco County Landfill. Commissioner Runyon seconded the motion which passed unanimously.***

Chair Kramer asked if there has been a similar request from Waste Connections. Ms. White explained that we have received such a request; however, it has not been reviewed by the SWAC. She explained that the Solid Waste Ordinance requires a recommendation from the SWAC and suggested that the Board could approve the increase pending that recommendation. Chair Kramer noted that the request from Waste Connections mirrors that of the Landfill.

Mr. Zalaznik said that he would convene a phone meeting of the SWAC as soon as possible in order to secure their recommendation.
Chair Kramer moved to approve the requested 3.3% rate increase for Waste Connections pending a positive recommendation from the Solid Waste advisory Committee and to direct staff to prepare an electronically signed order approve the increase upon the receipt of said recommendation. Commissioner Runyon seconded the motion which passed unanimously.

Wasco County Landfill Manager Nancy Mitchell explained that in April 2019, the DEQ will be raising their fee by 7¢ per ton. She asked if a formal letter requesting an increase to local rates would be expected prior to passing that fee along to the customers. Chair Kramer replied that it would follow this same process – a letter to the SWAC to provide a recommendation to the Board for approval of the increase.

Agenda Item – Landfill Longevity Report

Mr. Zalaznik noted that the longevity of the landfill has diminished by ten years over the last year. He said that the report has a 25-month projection for the landfill’s plan to increase capacity. He pointed out that there is a projected shortage of soil for when the landfill ceases to operate at its current location. He commented that Waste Connections is working off of a 2003 site projection; hopefully that will get updated.

Waste Connections District Manager Kevin Green stated that he would like to have the landfill go back to farm land but the soil is poor and always has been. He stated that the plan will be updated starting this year and continuing into 2019; if the changes are significant, they will be presented to the Board of Commissioners. He said that they are trying to keep it as natural as possible.

Mr. Green went on to say that they have development plans for the site that include excavating, but not a lot. Vice-Chair Hege asked that if they excavate more, won’t it increase capacity. Mr. Green responded that it would, but the capacity will be gained elsewhere. He explained that the site is moving small amounts in the way of landslides and the engineers recommend that they not excavate that particular area so as not to trigger more landslides. He pointed out that they did not have that information when they developed the 2003 plan and have been successful in stopping any movement.

Further discussion ensued regarding the rate at which longevity is decreasing. Mr. Green explained that the number is recalculated each year based on that year’s usage along with other factors; therefore, the longevity can increase or
decrease in any given year. Mr. Stone commented that the drop is alarming and asked what happens in 38 years when we are out of space. He said that he wants to know now so that he can plan for that.

Mr. Green responded that he cannot predict the rate. He said that permitting a new site is challenging; this site is already permitted and an expansion is much easier to permit. He said that it is a good possibility that if the County wants the expansion the DEQ will permit it. From that point, Waste Connections would have to work with the County on what they want to do – it is good to plan now. Mr. Stone replied that we cannot do that without the information from Waste Connections.

Mr. Zalaznik noted that a change of use and approach would have to be proposed to DEQ; he asked if there is a plan for that. Mr. Green replied that they are working on that and if the County supports it, they will work to make it happen. He said that Waste Connections already owns a lot of land outside of the landfill footprint.

Chair Kramer suggested connecting Waste Connections with the Wasco County Planning Department to begin the process. Mr. Green stated that he would like to complete the plan first to have a place to start. Ms. Mitchell added that it is a long process that has already been going on for a couple of years, beginning with a strategic plan. He said that they have budgeted for the closure as they are required to have a closure bond.

Further discussion ensued regarding next steps including the possibility of a pre-application conference. It was noted that the landfill is not within the scenic area boundaries.

Agenda Item – Solid Waste Ordinance Update

Chair Kramer stated that he and Mr. Zalaznik have been working on this for over a year; through the help of counsel we have a draft ordinance developed by Dan Olsen for Coos County. He said there are not a lot of differences between our ordinance and Coos County’s draft with the exception of the SWAC which they do not have. He said they hope to have our revised ordinance ready for adoption in 2019.

Mr. Zalaznik said that this has been discussed by the Advisory Committee and needs to be reviewed at a higher level. He stated that he wants to make sure it is fair both to the consumer and the operator. He added that the composition of the
SWAC also needs to be addressed – perhaps adding someone with a background in water pollution and waste.

County Counsel Kristen Campbell said that our ordinance is very outdated and she has already had conversations with Mr. Olsen.

Vice-Chair Hege asked what kinds of issues are problematic in the current ordinance. Chair Kramer replied that the SWAC composition is very specific which may not be a bad thing but titles have changed. The concept is there, but it needs to be modified; he said he would like to see a Commissioner be a voting member. Mr. Zalaznik noted that it is supposed to be updated every 10 years and it has been 22.

Further discussion ensued regarding the composition of the SWAC. Ms. Campbell said she looks forward to in-depth discussions. Mr. Green and Ms. Mitchell offered to help with the work.

**Commission Call**

Chair Kramer reported that South Wasco Park and Recreation District Board Chair Brackman is asking about a surcharge fee on events within the District to fund SWPRD. He said that according to his research, it is not a good idea. He said taxing the events of other organizations may not be good and there will be issues around how it is collected and disbursed.

Mr. Stone said that before we go too far into it, there needs to be an open and honest discussion with the Fair Board about what could be done.

Chair Kramer called a recess at 9:50 a.m.

The session reconvened in the Celilo Room (B04) at 10 a.m.

**Agenda Item – Work Session**

**BUILDING CODES**

Commissioner Runyon reported that he and Mr. Stone had phone conversation with Cameron Smith, Director of the Oregon State Department of Consumer and Business Services, saying that Mr. Smith was open to a positive discussion. He went on to say that the bottom line is that Mr. Smith thinks that Wasco County should take on the Building Codes program. The question is – Can we use reserve funds to expand office space to accommodate the program? He stated that Mr. Smith believes we can and we have asked for that in writing. He said that
it sounds like we have the State’s support in putting the program together; he said that he thinks we should be looking at it. He added that it would be a plus to continue to work with the City of The Dalles to be involved; we could talk to the other counties down the road. He said that it would be our program and we would set the fees; control has always been important – how we manage it is the big question. He concluded by saying that if anyone is going to run the program, the most responsible entity in the valley is Wasco County.

Mr. Stone stated that it still boils down to two possible decisions – give it to the State or keep it. Commissioner Runyon pointed out that if it goes back to the State, there will not be an office in The Dalles.

Vice-Chair Hege commented that that is the key issue. He said that he thinks it is a bluff but we do not control that. Mr. Stone added that Mr. Smith neither confirmed nor denied that circumstance. He went on to say that if we give it back to the State we can then lobby for better service.

Mr. Stone went on to outline some of the issues. If the City of The Dalles were to apply for the program it is likely that it would take more than a year, perhaps as much as two years before they would get it. Even if they did get the program, they could not administer the program outside of the city limits. He said that we could keep the program and then contract with the City of The Dalles if they are interested in that. He stated that if we take the program and the neighboring counties contract with us for services, the non-negotiable piece would be a mechanism to protect our general fund in the event of a downturn in the economy – that is a contract, not shared governance. He went on to say that if we take the program, we will have to use a sizeable amount of the reserves to make the office space habitable at public works. He said that he would envision widening walls to the roof line, relocating the existing conference room and a full HVAC upgrade to address some of the environmental issues. He pointed out that if we contract out for the services, there is some legislative uncertainty of the viability of that scenario. Even if we did, it would still be our program, our liability and our risk.

Further discussion ensued regarding providing services to neighboring counties and the failsafe of giving it back to the State if the program begins to cost too much.

Mr. Stone said that the State has indicated there is a qualified building official who would like to move to The Dalles, but they are unable to commit to that. He
said that it is easier now that the State has staffed the office but we will need to determine how it is to be managed. There are a couple of models – our Planning Director, Angie Brewer, supervises the program and we hire someone to assist or hire someone in Administrative Services to oversee the program.

Ms. Brewer said that she is more familiar with the Planning model as we have already explored that possibility. She stated that she is comfortable with that model and is not sure what the Administrative Services model would look like. She reported that she spoke with Multnomah County where there is a Planning Department model for Building Codes; they added a Deputy Planning Director to take care of the daily items to free up the Director to work on legislation. She added that they have a transportation program as well; we do not.

Vice-Chair Hege commented that we need to look at all the models. He said he would like to sit down with the City of The Dalles and with citizens so that they have clear understanding and get their feedback. He said that he thinks the best solution is for the state to take it, but that may not be realistic. Commissioner Runyon added that what we need to make sure is that we are doing what is best for Wasco County.

Further discussion ensued regarding a meeting with the City. It was determined that a joint work session would be a good environment for open discussion. Staff will work to put that together.

Public Works Director Arthur Smith interjected that if it were him, he would want a legal or financial opinion regarding use of the Building Codes reserves. He said that may cost $5,000 but it would be a good investment – we are talking about adding 6-10 highly paid staff to the County. He said that taking the program is untenable without a remodel of the building and it could cost as much as $100,000 just to get a plan. He added that the building is old and will require a lot of updating with a lot of unknowns. He asked if we have asked our state representatives about the response we have gotten from the Building Codes Division.

Further discussion ensued regarding legislative avenues – the risks and benefits.

Finance Director Mike Middleton pointed out that there will be additional costs to the County outside of the building and added staff. There will be an additional burden to existing staff – finance, human resources and administrative services. He said that we will need to recover some of those costs from the program.
Ms. Campbell said that she stands ready to help implement any of the scenarios described today. She said she would like a solid legal opinion on the use of the reserves. It is hard to make decisions without that information and that would be her priority. She added that there will be legal costs associated with this and she is hesitant to commit those resources if we cannot afford it.

Vice-Chair Hege said that whether or not the other counties come with us is a big deal. If they do, then we know that all the reserves will come with the program. If not, we do not know how much of the reserves will come to us to get the program started. Mr. Stone said that they promised to discuss it at their Tri-County meeting but he has not heard the outcome of that discussion.

Kristen stated that she would like to see a solid transition plan were the County to take the program.

Chair Kramer asked if an extension of time was discussed when talking to Mr. Smith. Mr. Stone replied that Mr. Smith indicated that they will continue as long as we are moving forward.

**Planning Fee Waivers**

Ms. Brewer stated that her staff has been telling people that the list of permanent fee waivers for agencies was removed from the Ordinance years ago but the Ordinance still grants the Planning Director authority to authorize waivers. She said that she is looking for clarity in the process to be able to give solid information to partners. She said that over the last ten years, we have waived approximately $9,000 through the list of permanent waivers.

Mr. Stone said that he would like to get the list set in granite; non-profits need to come off of the list. He said that he could support waivers for government entities and taxing districts.

Vice-Chair Hege stated that the problem with the list is the specific names – it needs to be defined categories.

Ms. Brewer reported polling other counties; the results were all over the board – some have no waivers, some have all waivers go to the Board of Commissioners, some have categories of waivers. She said she believes that her staff can handle the requests at their level, escalating it to the Board when appropriate. She said it is when we change policies and do not inform them that they get upset.
Vice-Chair Hege noted that we are not talking about a lot of money; we just need to be sure there is equity.

Mr. Stone said that he will contact counties and the State to get answers regarding Building Codes. He said it would be ideal if we could get everyone on the same page.

Chair Kramer adjourned the session at 11:22 p.m.

The Wasco County license fee for 2018 was $112,508.00 this will increase to $116221.00 in 2019.

The County’s Host Fee will change from $1.55 to $1.60 per ton in 2019.

RE: Solid Waste proposed rates

Attention:  
Commission Members

Dear Commission Members,

The Dalles Disposal would like to respectfully request a rate adjustment averaging approximately 3.3% to help offset rising operational costs and disposal fees. We request this adjustment to be effective January 1, 2019. Some examples of these increases include but are not limited to, health care costs, environmental compliance, and fleet maintenance. Oregon Department of Transportation is scheduled to increase fees, such as registration fees and weight-mile taxes.

We use The Consumer Price Index (CPI) for the Standard Metropolitan Statistical Area (West-C) to benchmark our changes in operational costs. The most recent July to July comparison increased 3.9% and we believe this is a good indicator of our overall experience. The Wasco County Landfill will be increasing both its gate rate and the pass-through Household Hazardous Waste tax by 3.3% effective January 1st. We have incorporated these increases into the attached proposed rate schedule.

We would like to be scheduled on the Board of Commissioners agenda at your earliest convenience to discuss our proposal. We appreciate the continued opportunity to provide Wasco County with high quality solid waste services.

Sincerely,

Jim Winterbottom  
District Manager

SUMMARY

This 2018 Capacity Report (Report) has been prepared by Vista GeoEnvironmental Services (VISTA) for the Wasco County Landfill (WCL), located in The Dalles, Oregon. The Report consists of an Estimated Quantities Summary (Table 1), 12 drawings, and this summary section. The data and drawings are for planning purposes only and should not be used for design, bidding, or construction purposes.

The basis for the drawings and estimated quantities are:

- 2017 Capacity Report, Wasco County Landfill (VISTA, July 2017);
- Phase IV Development, Wasco County Landfill (Shaw EMCON/OWT, April 2003);
- March 28, 2018 aerial survey (369 acres) with topographic mapping performed by PBS Engineering and Environmental, Walla Walla, Washington; and
- April 2, 2017 aerial survey (360 acres) with topographic mapping performed by Cooper Aerial Surveys Co., Tucson, Arizona; and
- Cell 3H has been constructed and approved by the Oregon Department of Environmental Quality (DEQ) for waste disposal since the 2017 Capacity Report was prepared.

Areas and volumes were estimated using AutoCAD Civil 3D software, and spreadsheet calculations. The notes in Table 1 specify the methods used to calculate the quantities for the individual line items.

Based on the surveys described above (Drawings 2 and 3), approximately 770,655 cubic yards (cy) of airspace were consumed between April 2, 2017 and March 28, 2018. During this period WCL reported gate receipts of 718,326 tons. Therefore, the calculated period gross waste density (Line 21) is 1,864 pounds/cy (lbs/cy) (0.932 tons/cy).

The estimated gross remaining useable constructed airspace, based on the 2018 topography (Drawing 3) and the interim fill plan (Drawing 4), as shown on Drawing 8, is approximately 2,033,092 cy. This calculation includes the airspace contribution from Cell 3H (6.1 acres, total) that was constructed and made operational since the 2017 report was prepared. Assuming that 80 percent of this volume (i.e., 1,626,474 cy) is accessible (to allow for the access roads to the assumed fill elevation of 870 ft, and other operational constraints) and assuming the average airspace consumed per month for the last reporting period (approximately 65,120 cy/month), the estimated gross remaining life of the constructed area is approximately 25 months from March 28, 2018 (i.e. to the end of April 2020).

The permitted gross capacity is approximately 39,706,400 cy and the total gross airspace consumed to date is approximately 9,890,000 cy, resulting in a remaining gross waste airspace of approximately 29,810,000 cy.

(b) Has good moral character, or if the applicant is a firm or corporation, that the principal partners or officers are of good moral character.

(c) Has sufficient experience in properly providing disposal service to insure compliance with this Ordinance and any regulations promulgated thereunder. If the applicant does not have sufficient experience, the County Court may require the applicant to submit a corporate surety bond in the minimum amount of $5,000.00, but not more than $25,000.00, guaranteeing full and faithful performance by the applicant of the duties and obligations of a franchise holder under provisions of this Ordinance and applicable Federal, State, and local laws and rules or regulations. In determining the amount of bond to be required, the County Court shall give due consideration to the size of the site, the method of disposal proposed, the population to be served, adjacent or nearby land uses, and the potential danger of failure of service.
(4) If the applicant is providing disposal service on the effective date of this Ordinance and files his application within 30 days thereafter, he may continue service until the final decision of the County Court on his application.

103.050 ISSUANCE OF DISPOSAL FRANCHISES OR LICENSES

Applications for disposal franchises or licenses shall be reviewed by the Administrator, the Wasco County Health Officer, and the Wasco County Planning Commission. The Administrator, Wasco County Health Department, and the Wasco County Planning Commission shall make such investigation as they deem appropriate. Written notice shall be given by the Administrator to any person who holds a disposal franchise or license for service to all or part of the area that reasonably would be served under the application.

Upon the basis of the application, evidence submitted, and results of any investigation, the Committee shall make a finding on the qualifications of the applicant; whether or not additional service, land, equipment and/or facilities should be provided and what conditions of service should be imposed, including but not limited to whether the site should be opened to the public and under what conditions; whether or not certain types of wastes, solid wastes, or hazardous wastes should be excluded from the site or should be required to be accepted at the site; whether or not the site is economically feasible; whether or not the site may be integrated with existing private or county-owned or operated sites; and whether or not the site complies with all rules and regulations adopted pursuant to ORS Chapter 459 of this Ordinance.

On the basis of its findings, the Committee shall recommend to the County Court whether or not the application should be granted, be denied, or be modified. The County Court shall issue an order granting, denying, or amending the application. The Committee's recommendation regarding an application for a solid waste disposal license shall include a proposed license agreement and any order of the County Court granting an application for a disposal license shall authorize execution by the County of such license agreement which license agreement shall constitute a legally binding contract between the County and the licensee and shall govern the terms and conditions of the disposal site operations, including the setting and collection of rates.

103.060 APPEAL ON A FRANCHISE OR LICENSE

If the Order of the County Court is adverse to the applicant or to the holder of an existing franchise or license, it shall not become effective until 30 days after the date of said Order.
unless the County Court finds that there is an immediate and serious danger to the public or that a health hazard or public nuisance would be created by a delay.

The applicant or a franchisee or licensee may request a public hearing before the County Court upon the County Court's Order by filing a written request for the hearing with the County Court within 30 days after the date of said Order. On the filing of such request for hearing the County Court shall set a time and place for a public hearing upon its Order, which hearing shall not be more than 30 days from the date of said request for hearing. The applicant or franchisee or licensee may submit relevant evidence to the County Court upon the County Court's Order. Other interested persons or affected public or private agencies may appear and offer oral or written testimony. The County Court may, following the public hearing, affirm, modify, or rescind its prior Order.

Subject to provisions of Section 108.500, the determination of the County Court after conclusion of said public hearing shall be final.

If the County Court makes a final Order rejecting all or part of the application for a franchise, the applicant may not submit another application for the same service area or a portion thereof or the same disposal site for a period of six months unless the County Court finds that the public interest requires reconsideration within a shorter period of time.

103.070 EXCLUSIVE OR JOINT SERVICE UNDER A COLLECTION FRANCHISE

If the County Court finds upon recommendation of the Committee that an applicant for a collection franchise cannot provide service to a single customer, a group or type of customers, or for a particular type or unusually large quantity of solid waste, it may issue a franchise for joint service with another person who can provide that service, provided, however, that in all cases in which the County Court finds that the applicant is able to provide adequate service within the defined service area it shall issue an exclusive franchise for that area to the applicant.

If the holder of a franchise is unable to provide service for particular types or unusually large quantities of solid wastes, the County Court may issue a temporary or permanent franchise to another person for the limited purpose of providing service to the customer or customers having such particular type or unusually large quantity of solid wastes.

If the County Court finds upon recommendation of the Administrator that the need for service justifies action before a
complete investigation and final determination can be made it may Order the Administrator to issue a temporary certificate valid for a stated period not to exceed six months entitling a person to serve a defined service area or customers.

103.080 TRANSFER OF FRANCHISES

A franchisee or licensee may transfer his franchise or license or a portion thereof to other persons only upon written notice to and approval by the County Court.

Upon a recommendation and finding of the Committee the County Court shall approve the transfer if it finds that the transferee meets all applicable requirements met by the original franchisee or licensee. The County Court shall approve or disapprove any application for transfer of a franchise or license within 30 days of receipt of notice by the County Court unless the County Court finds there is a substantial question of public health or safety involved which requires additional time for investigation and decision.

Upon recommendation of the Committee the County Court may permit a franchise or license to be pledged as security for purchase of land, equipment, or facilities needed to provide service or to finance purchase of a business providing service under this Ordinance. The County Court may attach whatever conditions it deems appropriate to guarantee maintenance of service.

103.090 RESPONSIBILITIES OF FRANCHISEES OR LICENSEES

(1) The holder of a collection franchise:

(a) Shall provide required service, equipment, and facilities, but not less than service, equipment, and facilities commensurate with existing service provided within the service area defined in the franchise, within one month from the date of issuance of the franchise unless the County Court extends the time upon showing of reasonable grounds by the applicant. In the event an area is not receiving service on the date of the application for a franchise covering such area, the County Court may order that service be provided at such time as it finds to be reasonable.

(b) Shall not voluntarily discontinue service to the service area or any substantial portion thereof or any customer without giving 90 days written notice of the proposed discontinuance of service to the Administrator and to his customers and shall not discontinue the service without receiving the approval of the County Court. Nothing in this section shall
prohibit a franchisee from refusing to provide service to a customer if the customer refuses to pay for the service in accordance with rates established pursuant to this Ordinance or for other reasons as may be established by the County Court by regulation, provided, however, in no event shall the holder of any franchise terminate such service without seven days prior written notice notifying his customers and the Administrator of the holder's intention to terminate service. A franchise holder who has discontinued service on the basis of a refusal of a customer to pay for such service may demand that the customer pay in advance a reasonable deposit to guarantee payment for future services before reinstating such service.

Nothing in this subsection shall apply to any Order for a change, restriction, or termination of service by any public agency, public body, or Court having jurisdiction.

(c) May contract with another person to provide service within a service area after giving written notice to and obtaining approval of the Administrator. The Administrator shall approve the contract unless he finds that the quality or extent of service would be jeopardized.

(d) May refuse service to a customer upon reasonable grounds when approved by the Administrator upon a finding that service at the particular location would jeopardize the safety of the driver of the collection vehicle or the motoring public, that the customer has not provided reasonable access to the pickup point for the containers storing solid wastes without hazard or risk to the person providing service, or that weather conditions prevent service to the particular customer.

(2) The holder of a disposal franchise or license:

(a) Shall not voluntarily discontinue service without giving at least 90 days written notice of the proposed discontinuance of service to the County Court and to any franchisee using his disposal site and further receiving the approval of the County Court prior to discontinuing said service. This paragraph shall not apply to any Order for closure or restriction of use by any public agency, public body, or Court having jurisdiction.
(b) May contract with another person to operate the disposal site after giving written notice to and obtaining the approval of the Administrator. The Administrator shall approve the contract unless he finds that the quality or extent of service would be jeopardized. In making his determination, the Administrator shall consult with the Wasco County Health Department.

(c) May refuse disposal service to any customer if the customer refuses to pay for the service in accordance with the rates established pursuant to this Ordinance or any approved license agreement. A franchise holder who has discontinued service for refusal of a customer to pay for such service may demand that the customer provide a reasonable deposit in advance to guarantee payment for future service prior to reinstating such service.

(d) A disposal site licensee shall be governed by the terms and conditions established in the underlying license agreement.

103.100 ENFORCEMENT OF FRANCHISE PROVISIONS

The Administrator shall upon reasonable cause make an investigation to determine if there is sufficient reason and cause to suspend, modify, revoke, or refuse to renew a franchise as provided in this section. If in the opinion of the Administrator, there is sufficient evidence to constitute a violation of this Ordinance or ORS Chapter 459, or the rules or regulations promulgated under either, the Administrator shall notify the holder of the franchise in writing of the alleged violation, delineate in said notice the steps that must be taken to cure the violation and inform the holder that he must comply with the requirements set forth in said notice. The Administrator shall notify the Committee of said violation. Upon a finding that a violation exists and that the franchisee is unable or refuses to cure the violation, the Committee shall make its recommendation to the County Court that the franchise be suspended, modified, or revoked or that it not be renewed.

103.110 SUSPENSION, MODIFICATION, REVOCATION, OR REFUSAL TO RENEW A FRANCHISE

(1) Suspension, modification, revocation or refusal to renew a disposal license shall be governed by the terms and conditions established in the underlying license agreement. Suspension, modification, revocation or refusal to renew a collection or disposal franchise shall be governed by this Section.
(2) Upon recommendation by the Committee or upon its own motion the County Court may suspend, modify, revoke, or refuse to renew a franchise upon finding that the holder thereof has:

(a) Willfully violated this Ordinance or ORS Chapter 459, or the rules or regulations promulgated thereunder; or

(b) Materially misrepresented facts or information given in the application for the franchise; or

(c) Willfully refused to provide adequate service in a defined service area or at the franchised disposal site after written notification and a reasonable opportunity to do so; or

(d) Misrepresented the gross receipts from the franchised service area or, if required to report on such receipts, the gross receipts from operation of a franchised disposal site.

(3) In lieu of immediate suspension, modification, revocation, or refusal to renew a franchise, the County Court may order compliance and make the suspension, modification, revocation, or refusal to renew a franchise contingent upon compliance with the Order within the period of time stated in said Order.

(4) If the County Court suspends, modifies, revokes, or refuses to renew the franchise, the action shall not become effective until 30 days after the date of the order unless the County Court finds that there is a serious and immediate danger to the public health or that a public nuisance would be created. The holder of a franchise may request a public hearing before the County Court upon the County Court's Order by filing a written request for such hearing with the County Court within 30 days after date of said Order. Upon filing of said request for hearing, the County Court shall set a time and place for a public hearing upon its Order, which hearing shall be no more than 30 days from the date of filing of said request for hearing. The franchise holder and other interested persons or affected public agencies may submit oral or written evidence to the County Court relevant to the County Court's Order. The County Court may, following the public hearing, affirm, amend, or rescind its prior Order. Subject to provisions of Section 108.500, the determination of the County Court after conclusion of said public hearing shall be final.
The term of a disposal license shall be set by agreement of the County and licensee and set forth in the underlying license agreement. Unless otherwise specifically negotiated by licensee and the County and stated in writing in the license agreement, the term of a disposal license shall be perpetual and the disposal license shall grant the licensee the right to operate the approved disposal site for so long as the licensee maintains all permits, approvals and authorizations required under state law. The term of a disposal license and the right to operate thereunder shall be separate and distinct from any capacity or length of use guarantee that may be set forth in a license agreement.

PREVENTING INTERRUPTION OF SERVICE

The holder of any franchise agrees, and it is a condition of his obtaining and holding the franchise that whenever the County Court finds that the failure of service would result in creation of health hazards or public or private nuisance, the County Court, after reasonable notice, but not less than 24 hours notice to the franchisee and a public hearing if the franchisee requests such hearing, shall have the right to authorize another franchise holder or other person to provide service or to use and operate the land, facilities, or equipment of the franchise holder through leasing to provide emergency service in the event of a serious interruption of service to all or to a class or group of customers for so long as such interruption continues.

TERM OF FRANCHISES

Franchises shall be renewable unless grounds exist for refusal to renew pursuant to Section 103.010 of this Ordinance.

The term for collection franchises shall be ten years unless the County Court finds that a longer or shorter term is required in the public interest.

The term for disposal franchises shall be determined by the County Court upon the basis of the recommendation of the Committee based on site longevity, population to be served, and probable use.

FRANCHISE FEES

(1) The County Court shall collect in the manner and at the time provided in this section from the holder of:

(a) Any collection franchise an annual fee of $100.00 per collection vehicle used in providing collection
service on July 1 of the year and payable to Wasco County on July 1 of each year.

(b) Any disposal franchisee, a franchise fee of 4% of its gross revenues from garbage disposal, payable monthly by the 20th of the month.

(2) Every collection franchisee shall maintain books and records disclosing the gross receipts from his service area, which books and records shall be open at reasonable times and places for audit by authorized personnel of Wasco County. When reasonably required by the County Court the holder of a disposal site franchise shall maintain books and records disclosing gross receipts at the disposal site, which books and records shall likewise be available for audit.

(3) Any disposal franchisee failing to pay the franchise fee by the time specified in Subsection 1(b) of this Section is delinquent and shall pay a penalty fee in addition to the required franchise fee. The penalty fee shall be $100.00 for each day the payment is delinquent.

(4) Where the County Court has authorized a disposal site to operate under license instead of franchise, the licensee shall pay license and host fees and the licensee shall set disposal rates according to the terms of the underlying license agreement. Similarly, the obligation to maintain books and records, the County's inspection of the same and the County's rights and remedies pertaining to failure to pay any fees by licensee shall be governed by the terms of the underlying license agreement.

103.160 USE OF FRANCHISE FEES AND HOST FEES

Fees collected pursuant to Section 103.150 and 103.155 of this Ordinance shall be paid into the general fund of the County, unless otherwise directed by the County Court. The Committee may make recommendations to the County Court on a budget for the use of such funds to carry out the provisions of Section 101.020 of this Ordinance.

(1) To determine whether there is reasonable cause to believe that a public nuisance exists on private property outside the limits of any city, the County Court, or whomever it designates, may conduct an investigation for that purpose. In conducting such an investigation, the Court, or whomever it designates, may administer oaths, subpoena and require the attendance of witnesses at public hearings, require the production of relevant documents, and take the testimony of any person.

(2) Whenever it appears that there is reasonable cause to believe that a public nuisance exists, the Court may order that a notice be issued and served upon the owner, tenant, occupant or person in possession of the premises where the nuisance is alleged to exist, requiring the person to appear before the board at the time and place stated in the notice to show cause why a nuisance should not be declared to be existing on the premises.

(3) At the time and place described in the notice, the Court shall conduct a public hearing on the question of the existence of the alleged nuisance. If the board finds that a nuisance exists, it shall declare the existence of a nuisance by order entered in its journal, and may order a suit to be brought in the name of the County to institute injunction, abatement or any other proceeding provided by law to prevent temporarily or permanently the existence of the nuisance.

104.030 WHEN COURT MAY ABATE NUISANCE; LIABILITY; COSTS

CHAPTER 105 RATES AND CHARGES FOR COLLECTION AND DISPOSAL SERVICES

105.010 Determination of Rates
105.040 Rate Preferences Prohibited
105.050 Responsibility for Payment of Charges for Service

CHAPTER 105 RATES AND CHARGES FOR COLLECTION AND DISPOSAL SERVICES

105.010 DETERMINATION OF RATES

(1) This Section governs the establishment of rates and rate adjustments for collection and disposal franchises. This Section does not regulate the rates charged for disposal services or adjustments thereto where the County Court has authorized a disposal site to operate under license instead of franchise. The rates and adjustments thereto for
disposal services provided under authority of a disposal license shall be governed by the terms of the underlying license agreement.

(2) Upon recommendation of the Committee the County Court may approve and establish existing rates filed by applicants for franchises if it finds that such rates are not demonstrably unreasonable and are not substantially higher than those charged generally in the County under similar service requirements and for the same or similar quality of service or it may establish a rate schedule. In determining whether rates are reasonable under this subsection the County Court shall give due consideration to the rate guidelines established by this section.

(3) Upon recommendation of the Committee the County Court may establish uniform rates throughout the County or may establish rates within zones based upon the length of haul or other factors which may, in the opinion of the County Court, justify establishment of rate differentials.

(4) When establishing rates for disposal sites, franchised under this Ordinance, in addition to other factors specified in this section, the County Court shall consider the type of site, the cost of operation of such site, whether or not the site is open to the public, the type of waste to be disposed of and cost of compliance with Federal, State, and local laws and regulations, together with such other factors which may in the opinion of the County Court affect the rates to be charged. The County Court may establish uniform rates for franchised disposal sites or may establish different rates based upon the factors specified in this section.

(5) In determination of rates or proposed rate changes, the Committee and the County Court shall give due consideration to: the investment in facilities and equipment; the services of management; local wage scales; the concentration of customers in the area serviced; methods of storage; collection; transportation and disposal; the length of haul to disposal facilities; the cost of disposal; a reasonable return to the owners of the business; the future service demands of the area or site which must be anticipated in equipment, facilities, personnel, or land; extra charges for special pickups or pickups on days when service is not normally provided on a route; extra charges when the type or character of solid waste, including but not limited to wastes with peculiarly offensive odors, requires special handling or service; and extra charges for providing janitorial services on the premises where service is provided.
(6) The County Court may require an investigation by the Committee of any proposed rate or rate increase or decrease. For the purpose of making this investigation, the Committee, in cooperation with the Administrator, is authorized to hold public hearings and to take and receive testimony relevant to the considerations to be made by the County Court in establishing a rate or in allowing or denying the rate increases or decreases under this Ordinance. Upon completion of its investigation the Committee shall make a report of the public hearing and shall make recommendations to the County Court regarding the proposed rate.

(7) In establishing rates or in considering rate increases or decreases, the County Court must find that the rates will be just, fair, reasonable, and sufficient to provide proper service to the public. The County Court may consider the rates charged by other persons performing the same or similar service in the same or other areas.

(8) In the event no rate has been established for a particular type of service, the Administrator may establish an interim rate until the County Court makes a final determination on the rate for that type of service. In establishing such a rate, the Administrator shall give due consideration to all of the factors established as guidelines for the Committee and County Court in this section.

(9) Where disposal rates at a disposal site utilized by a County franchised solid waste collection company adjust due to a contract or scheduled adjustment approved by the Board (such as a cost of living inflator) there shall also be corresponding adjustment approved in the established collection rates as will be just, fair and reasonable to reflect such disposal rate adjustment. The owner or operator of any disposal site for which a scheduled or contract adjustment in the disposal rate has been approved by the Board, shall provide sixty (60) days advance notice to the County and all affected franchised collection companies of the amount and effective date of such disposal rate adjustment. The affected franchised collection companies shall within fifteen (15) days of said notice, prepare and submit to the Administrator a revised collection rate schedule fairly reflecting the pass-through of said disposal cost adjustment. The Administrator shall have fifteen (15) working days following the receipt of such revised collection rate schedule to accept the collection company’s proposal or propose an alternative rate schedule which it finds more fairly reflects the disposal rate adjustment. The revised collection schedule as accepted or recommended by the Administrator, shall become effective simultaneous with the effective date of
the proposed disposal rate adjustment. If the affected collection company disagrees with the Administrator's proposed alternative rate schedule, it may propose a formal rate review pursuant to this Section; provided, that the Administrator's alternative schedule shall remain in effect pending the completion of such review. Notwithstanding the Administrator's determination, the disposal rate adjustment shall go into effect as approved and the affected collection franchised companies shall be obligated to pay such adjustment.

105.040 RATE PREFERENCES PROHIBITED

(1) No franchise holder subject to rate regulation under this Ordinance shall give any rate preference to any person, locality, or type of solid waste stored, collected, transported, or disposed.

(2) Nothing in this section is intended to prevent:

(a) The reasonable establishment of uniform classes or rates based upon length of haul, type of solid waste stored, collected, transported, or disposed of or the number, type, and location of customers served or upon other factors as long as such rates are reasonably based upon costs of the particular service and are approved by the County Court in same manner as other rates.

(b) Any person from volunteering service at reduced cost for a charitable, community, civic, or benevolent purpose.

105.050 RESPONSIBILITY FOR PAYMENT OF CHARGES FOR SERVICE

Any person who receives service shall be responsible for payment for such service.
